## Full Stack Developer

JavaScript || HTML || CSS || React || Redux  
Node || Express || PostgreSQL  
Sequelize || Git || SCRUM || agile

---

I am a developer passionate about art and technology, who found in teaching a way to lead interdisciplinary teams and inspire my students to achieve their dreams. My curiosity about technology and the pursuit of constant learning led me to take a turn in my professional career and become a Full Stack Developer. My path has been very different from that of most developers, but that diversity is what allows me to stand out. I have acquired key skills in leadership, implementation of plans, and teamwork through critical thinking and a sense of responsibility. That's why I'm excited to apply for a Junior Front End Developer position. I know that my unique background, previous experience, technical and soft skills can be a significant contribution to a team with a collaborative culture. My goal is to demonstrate my passion and commitment, and to have the opportunity to be part of a team that contributes to my professional growth.

## PROJECTS

### Front End Web Developer - "PET BOOK"

Apr.10 - May.5, 2023

Academic Experience

Henry Bootcamp, Buenos Aires, Argentina

For my final group project at Henry Bootcamp, I designed and developed a pet adoption application for a non-governmental organization (NGO). The application included features such as authentication, search and filter options, user banning, email sending, forms, a frequently asked questions (FAQ) bot, soft deletion, CRUD operations, a dashboard, a store, and payment gateway integration with MercadoPago. We used JavaScript as the primary programming language and tools like Vite, React, Redux, Tailwind, and GitHub for the front-end, and Node.js, Express, Sequelize, and PostgreSQL for the back-end. The project was developed using the Scrum and agile methodologies. You can find the project on GitHub: [PET BOOK](#), and a video of the project on [Youtube](#).

## **Full Stack Web Developer - "THE DOG APP"**

Mar.20 - Apr.10, 2023

Academic Experience

Henry Bootcamp, Buenos Aires, Argentina

As a Full Stack Web Developer, I designed and developed an application called "The Dog App" during my time at Henry Bootcamp's academic program. The project was an individual one and involved creating a dog and cat application that uses API requests. The application features combined search and filtering options, sorting, and CRUD operations.

For the front-end, I used JavaScript, Vite, React, Redux, and CSS, while for the back-end, I employed Node.js, Express, Sequelize, and PostgreSQL. I hosted the code on GitHub under and [THE DOG APP](#) uploaded a video to [Youtube](#).

## **PROFESSIONAL EXPERIENCE**

### **Pedagogical Coordinator**

Mar. 2006 - Feb. 2023

Ministry of Education, CABA, Argentina.

Extended Day - Socioeducational Program.

During my time at the Ministry of Education, I had the opportunity to lead and collaborate with interdisciplinary teams of teachers in the Extended Day Socioeducational Program. As a Pedagogical Coordinator, my role involved a variety of responsibilities, from advising on the planning of pedagogical projects, to implementing and organizing educational activities.

Through this experience, I learned to work collaboratively, leading and motivating team members to achieve our goals. It also allowed me to develop effective communication skills, ensuring understanding and collaboration in the implementation of pedagogical projects. I am proud to have been part of a program that positively impacted the education of hundreds of children and young people in the Autonomous City of Buenos Aires.

## **PROFESSIONAL EDUCATION**

- Full Stack Web Developer. Henry Bootcamp. 700 hours of theoretical-practical coursework. 2023.
- Bachelor's Degree in Acting. National University of Arts. 2006 - 2014.

## **SOFT SKILLS**

- Continuous learning
- Teamwork
- Creativity

## **LANGUAGES**

- Inglés C1- Advanced. [EF SET CERTIFIED](#)
